# SCOTT, MORE THAN JUST A COFFEE

Scott developed the slimmest bean-to-cup espresso machine on the market: only 18cm wide! Stylish, compact, convenient, silent, economical and eco-friendly (A+ eco rating), the machine will easily find its place in your home.

With its 19 bar pump pressure, its brewing system, and its patented pre-brewing technology, its 5 grinding settings, its height-adjustable nozzle and its ability to memorise your settings, the SLIMISSIMO range guarantees the perfect extraction of coffee aromas for a tailored cup of coffee.

## 1 THE BREWER

Adjustable up to 5 levels of fineness in order to adjust the coffee grind.

## 2 THE CAPACITY

Water tank capacity of 1,2L and 200g coffee beans container.

## 3 THE STEAM NOZZLE

Adjustable, it can move to a 45° angle, for steaming the milk or for distributing hot water (independent circuit). Can be easily dismantled and cleaned.

## 4 THE PRESSURE

The machine's remarkable 19 bar pump pressure maintains the quality of the coffee, whilst preserving the aromas of the coffee beans.

## 5 THE LED TOUCH SCREEN

Optimal readability due to its tactile icons which allow for the instinctive use of all the machine's functions.

# ALLOW YOURSELF TO BE THRILLED BY COFFEE MADE OUT OF BEANS

Savour your coffee :

The freshly brewed coffee beans preserve all the nuances and richness of the coffee aromas.

Invent your coffee:

Make your coffee by mixing different coffee aromas from a variety of coffee beans.

Recycle your coffee:

100% recyclable and biodegradable, there are many uses for coffee grounds. These include being used as fertiliser, insecticide, deodorants or in the beauty industry...

And save :

The average price of a cup of coffee is 3 or 4 times less than the price of coffee pods or capsules.
